

## EVERY DAY A BIG DAY

**Chautauqua Opened in this City Monday. Large Crowds Attending Each Performance.**

The Redpath Chautauqua opened its engagement in this city Monday afternoon with an enjoyable concert by the Dunbar Ringers and Male Quartette, which was followed by an able lecture by Mr. Lyburger on "The Tariff." In the evening the Dunbar Bell Ringers and Male Quartette again gave a delightful entertainment. Mr. Henry Clark, of Chicago, gave his famous lecture, "Play Ball."

Tuesday morning Miss H. McArthur had charge of the Children's Hour and Mr. Charles R. Adair made an enjoyable and instructive address on "Raw Material." In the afternoon there was a Concert by the Harmony Concert Co., which was of the very highest character. W. I. Nolan followed with his lecture, "Father Adam and Brother Bill." The Harmony Concert Co. gave another concert in the evening and Edward Amherst Ott, that greatest of great Chautauqua lecturers, addressed a large audience on "The Haunted House."

The Chautauqua is easily the grandest entertainment ever in Mt. Sterling, being both intensely interesting and instructive, and if you miss a single performance you are sure to miss a real treat.

Following is the program for the remainder of the week:

### YOUNG BRYANT MUCH IMPROVED

Rezin Bryant, of Morgan county, brother of Mrs. E. R. Little, of this city, who was shot from ambush while riding along the road near Maytown, and who was taken to the Good Samaritan Hospital in Lexington last week, has sufficiently recovered to return to his home and left the hospital Friday. Bryant was shot through the body and the right arm, and had a part of his chin torn off and a 45 calibre bullet lodged in his back. Despite all the afflictions he has recovered rapidly.

If you want to see the best Fair in Kentucky; see the most exciting races; hear the best band; meet the biggest crowds and join with the best people on earth don't fail to attend the Montgomery County Fair every day. Fair begins Tuesday, July 21 and continues five days.

## MR. JAS. O'REAR TO MARRY

**Formerly Lived in This City and is a Son of Judge and Mrs. E. C. O'Rear.**

The following from Frankfort will be of much interest locally: "The announcement of the engagement of Miss Agnes Saffell and Mr. James O'Rear was made Wednesday at a luncheon given by Miss Saffell's sister, Miss Frances Saffell. The marriage will be a pretty social event of the early fall, October having been selected as the month, but the date has not been decided upon.

"The table decorations were very attractive and revealed the secret about to be announced even before the envelopes announcing the engagement were opened. In the center of the round table was a large mirror bordered with hedges of smilax. Upon this was a miniature bridal party. Cupids daintily groomed, represented this bride, bridegroom, minister and attendants. A basket suspended from the chandelier above the table was filled with sweet peas and smilax. Hidden beneath the flowers were envelopes tied with pink and white ribbons, which extended to each guest's place. When the strainers were pulled envelopes fell from the basket. They contained cards painted with pictures of brides and bearing the names of Miss Saffell and Mr. O'Rear.

"Covers were laid for Misses Nannie Cross, Lawler Haff, Hazel O'Rear, Elizabeth Taylor, Elise Dandridge, Brownie Roberts, Priscilla Williams, Cheatham Rodman, Marie Lockett, Virginia Bennett, Pauline Hendrick and Lillian Poyntz.

Miss Agnes Saffell was charmingly gowned in pink accordion pleated chiffon trimmed with lace and a girdle of Dresden ribbon. Miss Saffell was very dainty in Pompadour organdine over pale green net.

"Miss Saffell is the daughter of Mrs. Frances Taylor Saffell and a grand-daughter of Colonel E. H. Taylor, Jr. Since her debut last fall she has been taking a leading part in society. Mr. O'Rear is a son of former Chief Justice E. C. O'Rear and Mrs. O'Rear."

Mr. O'Rear has spent much of his time in this county for the past few years where he has been engaged in agricultural pursuits. He is a most excellent and worthy young man and has a host of friends in Mt. Sterling, the old home of his parents, who will be interested in the above announcement.

### HOLDING INSTITUTE

Mrs. Cora Wilson Stewart, of Morehead, is in this city this week in charge of the County Institute. Mrs. Stewart is known the world over as the originator of the Moonlight School System and is recognized as one of the leading educators of the United States. The teachers of Montgomery county are to be congratulated upon securing her services.

### DAN SCOTT STABBED

Daniel W. Scott, former Sheriff of Fayette county and prominent race horse owner, was stabbed at the Gibson House in Cincinnati, last week by James H. Baker, a trainer. His injuries are not as serious as at first thought and he has been removed from a hospital in Cincinnati to his home in Lexington. Baker was arrested, but was released on \$1,000 bond.

## HORRIBLE ACCIDENT

**In Which Little Girl is Killed and Her Mother Injured in Clark County.**

Madeline Ketchum, six-year-old daughter of Mrs. James (Tige) Hampton, of Winchester, instantly killed and her mother seriously injured Sunday afternoon when they were struck by the automobile of Dr. M. L. Myers, well known Winchester dentist, when they stepped directly in front of his machine though it was not going at a rapid rate of speed. The accident took place on the Lexington pike. Hampton, his wife and little girl were riding a motorcycle and lost the chain of their machine in some way. Dr. Myers came up in his automobile, slowed down and asked if he could be of any assistance. Mrs. Hampton and the child were out in the pike looking for the lost chain and as the automobile approached, Mr. Hampton shouted a warning to them to "lookout for the machine." They evidently were confused for they stepped directly in front of the automobile, which was almost upon them, and the child was instantly killed. The mother, who formerly was the wife of Dan Ketchum, of Jackson, was badly bruised and was dragged by the car for a considerable distance. She was cut about the head and eyes, but is not seriously injured. Dr. Myers was on his way to Lexington, but returned to Winchester with the dead child and Mr. and Mrs. Hampton. Dr. Myers expressed deep regret over the accident but declared it was altogether unavoidable, as the child stepped directly in front of his machine.

### SUES L. & N.

John D. Greenwade and S. P. Greenwade owners of the Mt. Sterling Stock Yard Co., have brought suit in the Clark Circuit Court against the L. & N. Railroad Co., for \$343.95 alleged damages for the delay in shipping cattle from Indian Fields to Cincinnati.

Everybody is going to attend the Montgomery County Fair the week of July 21-25. It will be the biggest and best ever given in Kentucky.

### DROUTH DAMAGING TO MONTGOMERY CROPS

Last week was an ideal one for farm work, and a great deal was accomplished on many farms, especially in tobacco, where plows and hoes have been running from daylight until dark. While there are some fields of tobacco in the county that look good and indicate good growth, the majority of the fields are very backward, and little start has been made. The ground is very dry and another good rain is needed that will penetrate the soil to a good depth. Some tobacco men have become discouraged already, but is seems as if this was a little early, as the weed grows very rapidly everywhere when it starts and a little rain now and then will bring it right along.

Wheat harvest is on and a great deal of wheat, barley and rye has been threshed. There were some fine wheat crops in the county, and a field of twenty acres belonging to Mr. John T. Woodford, averaged 33 bushels per acre. Various other fields showed averages of 19 to 26 bushels. The quality of wheat is good compared to years before, but the price is low, ranging around 75 cents per bushel, and little is selling anywhere.

Grass pastures are not extra good at this time, but cattle seem to be doing very well, and sales of heavy stuff are being made steadily for July and August delivery at prices ranging from 8 to 8 1/4 cents.

Rain is needed everywhere and water is scarce on some of the farms now and the ground is very dry in places.

Only few sales are going on. Ray Moss sold a nice three-year-old mare by Forest Denmark, dam by Montgomery Squirrel, to Algin Derickson, of Breathitt county, for a good price. Mr. Moss also sold to the Sanitary Meat Market, this city, sixteen 850-pound corn fed heifers at \$6.75 per hundred.

Dan Welsch purchased from W. L. Ricketts twelve 800-pound heifers at \$6.75 per hundred pounds.

E. S. Cunningham bought last week from imon Weil, of Lexington, 25 head of fancy Western steers, weight 600 pounds, at 7 1/2 cents per pound.

#### WHERE BUSINESS GETS TOO BIG

The failure of the Chafin group of wholesale dry goods corporations is another suggestion that a concern may get so big that its efficiency decreases in proportion to its size.

Some time ago the Commercial Appeal made this point in discussing a certain great railway system which formerly in the units composing it was profitable. But when the units were thrown together and made one great system the expense of operation grew and combined business did not grow.

There is a point where a business can reach in safety, and beyond that point business can be too big for the attention of those controlling it.

After a time a fixed basis will be established where it will not be regarded as safe to make it larger than that point where the ability of one man or one group of men to give it personal attention ceases.

The business in which the Chafin companies were interested required infinite attention to detail. The turn-over is big and the margin of profit is not great. If there is an extravagance or an unnecessary expense the long duration of either will be hurtful.

A compact railway system is a good illustration of the point we are making. Where the chief operating officials can get over his lines every two months, give attention to the terminals, devote time to every proposed improvement, look carefully into new contracts which involve an increase in fixed charges, the chance for leaks is eliminated.

Milton H. Smith will go down in history as a most competent and successful railway president. Mr. Smith is familiar with every mile of the Louisville and Nashville railroad. He knows the country 50 miles on either side of its tracks. He knows exactly the track room he has in New Orleans, how much in Memphis and how much in Birmingham. He is far-seeing and it will be found that his road in most every southern city it touches has all the advantages for the handling of freight.

He sees prospective waste

and avoids it. Mr. Smith knows his road, knows the capacity of the country, knows when to buy and when to build. Now, if he were president of a road three times as big, in the very nature of things he could not give that attention to the enormous line that he does to the Louisville & Nashville system.

What this man might have done with the Rock Island, with its big mileage, or with the Missouri Pacific, would have been interesting. He would have done the very best any man could have done with them, but the mileage of these roads are such that no human mind can grasp the details of their operation.

The United States Steel Company is a colossal corporation, yet in the steel hearing itself it was admitted that some of the smaller and independent companies were able to produce steel and steel products more cheaply than the big corporation, and could sell under it and make a profit.

Standard Oil was a big nationwide trust. It made an enormous amount of money. When Standard Oil was cut into a half dozen separate companies the combined profits of these companies were greater than the profits of the parent company out of which they were cut.

The American Tobacco Company broke into groups, and these groups are earning more now than did the consolidated company.

Business when it becomes enormously big seems to get just like an overgrown boy or an overgrown man. It is imposing just as a big man is imposing, but it is more effective as against a well managed normal sized business than is the giant against the man of normal size.

An honest man with a heart aflame, will never think or act in vain. Though his thoughts or acts may be unwise, his success will be such as to cause surprise. For faith, not wisdom, wins the prize.

#### WOOL GROWERS URGE LEGISLATION

As a result of the sheep and wool conference held recently in Washington growers and manufacturers are urging a Federal bounty system as a means to exterminate predatory animals on western ranges, the enactment of State laws to control dogs in farm States, the standardization of wool by the Department of Agriculture, the establishment of Government sheep-breeding farms to determine the breeds of sheep best adapted to various conditions and the creation of wool colleges for the promotion of more scientific methods in wool production.

In the report addressed to the Secretary of Agriculture by a committee appointed for the purpose, it is pointed out that the sheep industry of the United States is now valued at approximately \$230,000,000, but that unfavorable conditions are causing the supply of sheep to decrease rapidly. The conference was called by the Secretary in order to consider the problems presented by this situation.

The committee presents its conclusions in part as follows:

A careful estimate indicates that approximately \$15,000,000 worth of poultry and live stock are annually destroyed in this country by the predatory wild animals. In the Western States, on which most of this burden falls, the great percentage of these predatory animals are bred and raised on land properly withdrawn from settlement by the Federal Government. Under such conditions those interested in our animal husbandry feel that the Nation should assume its share of this burden through a system of national bounties.

In the farming States thousands of sheep are annually destroyed by dogs, and this menace keeps many farmers from taking up sheep husbandry, thus reducing the nation's supply of

meat and wool. There is a pressing need for better legislation on this subject in many of the States, and we respectfully suggest that the Department of Agriculture could materially assist in securing such legislation by giving this movement its moral support in every way possible.

At the present time we have in the United States no generally accepted standards for the determination of the various grades of wool. This lack of standardization makes it impossible for the woolgrower to know what grade of wool he is producing or the value of it in the market. We appreciate the most useful work done by the Department of Agriculture in the standardization of cotton and we urgently petition that at the earliest possible moment your department will take up the matter of standardizing wool.

Woolgrowing is a science that requires not only the sound judgment of practical breeders, but the technical knowledge possessed by the trained expert. We therefore appreciate that under present conditions there is immediate need for the establishment of Government sheep-breeding farms, one of which shall be located in the intermountain States and another in the central part of the United States, where, under supervision of experts, experiments may be conducted to determine what type of sheep produces the most desirable quality of wool and is best adapted to the conditions existing in the various parts of the territory concerned. In connection with this the Government breeding farm, we would urge the maintenance of a wool college where a short course in wool, woolgrowing, and sheep breeding would be available to those connected with our sheep industry. The urgent need of such institutions leads us to ask that every effort be made to establish them in the near future.

## ANNOUNCEMENTS

### FOR CONGRESS

We are authorized to announce  
HON. W. J. FIELDS  
of Carter county, as a candidate for the  
Democratic nomination for Congress  
from the Ninth District, subject to the  
State Primary of August 1st.

### Colonel H. A. Rogers for Beckham and Thomas

Mr. H. A. Rogers, one of the  
most prominent Democrats in  
the county, and also one of the  
biggest and best farmers, has an-  
nounced that he will support  
both J. C. W. Beckham for Sen-  
ator, and Mr. Thomas for Con-  
gress. Mr. Rogers at one time  
was one of Gov. McCreary's  
strongest supporters, but since  
the affair with Judge Evans, Mr.  
Rogers felt that the Judge had  
been badly treated, and did not  
decide which of the other two  
candidates he would support,  
having never voted for Gov.  
Beckham in any of his former  
races, he was inclined to go to  
Stanley, so he went to hear his  
speech in the Court House a few  
nights ago, and on account of  
the bitter way in which he spoke  
of the former Governor, Mr.  
Rogers made his mind up then  
to vote for Mr. Beckham. Many  
other strong men throughout  
the county feel the same way as  
does Mr. Rogers, and it is ex-  
pected this county will give both  
Mr. Beckham and Mr. Thomas a  
very large majority.—Winches-  
ter Sun.

## WANT TO BE NEAR GROUND

Tenants of Modern Skyscrapers Ob-  
ject to Taking Up Quarters in  
the Upper Stories.

"With the completion of the Wool-  
worth building, the maximum in the  
height of buildings has been ob-  
tained." This was the expression of  
the principal of one of the largest  
renting agencies in this city, when  
asked concerning desirability or  
financial advantage of skyscrapers as  
office buildings, says the Wall Street  
Journal. The tenant has called a  
halt. "Had the demand continued,"  
he said, "there is no knowing where  
the engineer, the architect or the  
builder would have stopped. Very  
tall structures which may be erected  
hereafter will be put up for adver-  
tising purposes and not for profit  
from rentals. There has been a re-  
markable change of sentiment on the  
part of tenants within the past few  
years. Time was when there was a  
rush to get into the newest and  
loftiest of structures, but not now.  
It is stated on high authority that  
there is scarcely a building of more  
than 22 stories in New York that  
pays a dividend or decent interest on  
the capital invested. One of more  
than 30 stories that paid 13 per cent.  
for the first few years after comple-  
tion does not pay expenses today.  
That tenants do not want to go too  
high from the ground is expressed in  
the most forceful way possible by  
refusing to rent space above a cer-  
tain level or by vacating premises  
above that level for others lower in  
the same or other buildings. Vari-  
ous reasons are assigned for the re-  
fusal to go high and for changes to  
lower levels. Some complaint of the  
long elevator journey, others the  
comparative isolation, and still others  
are honest enough to admit a  
shade of dread or doubt. In the  
Woolworth building, with 53 floors  
of office-renting space, there is none  
tenanted above the forty-first story,  
above which are twelve floors for  
rent."

The ideal skyscraper seems to be  
one of about 15 to 20 stories.

### SOMEWHAT SPEEDY.

Willie—Paw, what does unseemly  
haste mean?  
Paw—That's when the wife of an  
aviator sues him for a divorce.

### IT SEEMS THAT WAY.

Hen—Land sakes, Mariar, take  
that benzine can away from the fire!  
Mariar—What's the matter, Hen?  
Gettin' superstitious?—Judge.

### TOO RASH.

Conductor—Your fare, miss.  
Lady Passenger—Well, if I am  
you need not be so impertinent as to  
tell me so.

### FASHION'S SLAVE.

Willie—Paw, what is a slave to  
fashion?  
Paw—A man who has a wife and  
some grown daughters, my son.

### A SHREWD PLAN.

"How did you manage to find out  
how old Kate is?"  
"I asked her what she thought  
was a woman's most interesting age."

## WRESTLING MATCH

A wrestling match that is ex-  
pected to attract the largest  
crowd ever seen in Mt. Sterling  
will be that between Ed (Stran-  
gler) Lewis, of Lexington, and  
Jack Stone, of Louisville, two  
of the best known mat artists in  
America, which will be staged  
at the Tabb Opera House here  
next Monday night, July 13. All  
holds, including the strangle, will  
be allowed and the fastest match  
yet seen in Mt. Sterling is assur-  
ed. The last time Lewis and  
Stone met in Lexington the bout  
was one of the fastest ever seen  
in that city. The men worked  
so desperately that they ripped  
the canvas mat into ribbons, al-  
lowing the sawdust to fly in  
every direction, and finally blind-  
ing themselves with the dust.  
The referee was compelled to  
stop the match for fear that the  
eyes of the combatants would be  
injured by the sawdust. Stone  
and Lewis met for the first time  
two years ago and wrestled a  
three hour draw. Both men  
were swimming in sweat before  
the contest was finally declared  
a draw. Stone and Lewis are  
"big" town wrestlers, and the  
fans of Mt. Sterling are indeed  
fortunate to have the opportu-  
nity to see them in action. Lewis  
has defeated some of the best  
men in the game, and Stone  
wrestled Frank Gotch, the  
world's champion, a hard match  
when the Iowa wonder was in  
his prime. Lewis has defeated  
Bill Dometral, the great Greek,  
the Mysterious Conductor, Ed-  
die Schultz, Gus Castello, Farm-  
er James, Jack Leroy, Billy Jen-  
kins, Dr. B. F. Roller, one of the  
greatest wrestlers in the busi-  
ness, and many other big men.  
Lewis cracked Roller's ribs at  
Lexington and made him quit.  
Stone, who came from his native  
Sweden, four years ago, has been  
busy since arriving here, and he  
has many scalps dangling in his  
belt. The match next Monday  
night will be a hummer and if  
you miss it you'll be sorry.

## CASH INVESTMENT OF THE RAILWAYS

During the six fiscal years  
1908 to 1913, inclusive, the steam  
railways of the United States of  
Class I invested in their road and  
equipment to the amount of \$4,-  
010,385,303. Railways of Class I  
so designated by the Interstate  
Commerce Commission, are  
those with annual operating rev-  
enues of over \$1,000,000. They  
include about 90 per cent. of the  
mileage, receive more than 90  
per cent. of the traffic.

The cash investment of the  
operating railways of Class I of  
the Eastern District during the  
six years was greater than the  
amount of capital securities is-  
sued by them during this period,  
and was 19.9 per cent. of the ag-  
gregate of their capital securities  
outstanding June 30, 1913;  
of the railways of the same  
class of the Southern District it  
was 21.1 per cent., and of the  
same class of the Western Dis-  
trict it was 23.2 per cent. of the  
aggregate of their capital securi-  
ties outstanding June 30, 1913.  
That is, the cash actually ex-  
pended by these railways during  
the last six years upon their  
properties used in transporta-  
tion amounts to more than one-  
fifth of their total capitalization  
at the close of the last fiscal  
year. This is at the rate of  
\$668,397,551 per year.

These figures are obtained  
through a compilation made by  
the Bureau of Railway Econom-  
ics from the reports of the rail-  
ways, to the Interstate Commerce  
Commission, and have not here-  
tofore been collated.

## BOURBON COURT

A small crowd was in town  
Monday for county court. Prac-  
tically no stock was on the  
market and very little business  
was transacted. The principal  
topics of conversation were the  
Thomas-Cantrill Congressional  
race, the approaching local op-  
tion campaign and the prevail-  
ing drouth. A great deal of  
electioneering was done for  
Bourbon's popular candidate,  
Hon. C. M. Thomas, and his  
friends are confident of his nom-  
ination. The advocates of local  
prohibition are hopeful of the  
result of the election to be held  
September 28, as Bourbon coun-  
ty is expected to give a large  
"dry" majority, Paris being the  
only "wet" spot in the county.  
The dry weather is becoming a  
serious matter with the farmers.  
Corn, tobacco, meadows and  
gardens are suffering for rain,  
and stock water is getting  
scarce. Wheat threshing is pro-  
gressing satisfactorily and the  
crop is the largest for years.

## FORGER CAUGHT

Last week the Cincinnati Bar-  
gain House, of this city, cashed  
a check for \$10.45 for one Chas.  
Fuller, a young white man about  
25 years old, purporting to have  
been executed by Mr. Thos. J.  
Rayborn. Upon investigation it  
was found to be a forgery and a  
search for Fuller was instituted,  
resulting in his location at Hun-  
tington, W. Va. Deputy Sher-  
iff R. M. Montjoy immediately  
went there and brought Fuller  
here. He will be tried at the  
September term of the Mont-  
gomery Circuit Court, and ad-  
mits his guilt.

## LEWIS AND STONE TO WRESTLE HERE

Ed. Lewis, known as the  
Strangler and one of the best  
wrestlers in America will wrestle  
Jack Stone, the big Swede,  
from Louisville in this city Mon-  
day, July 13th at the Tabb Op-  
era House.

Those men have met before  
and after each man had won a  
fall they wrestled for three  
hours and finally the referee  
called the bout a draw. Man-  
ager Wilkerson has guaranteed  
the men \$300.00 and they have  
agreed that the winner receive  
the full purse, so it goes without  
saying this will be some match.  
Stone has wrestled twice in this  
city and won both times and  
will have many friends among  
the crowd, while quite a num-  
ber from here have seen the  
Strangler perform and will pull  
for him. This promises to be  
the best bout pulled off in this  
section of the State for a long  
time and a record breaking  
crowd is expected.

### BRINGS HORSES HERE

Owing to the extreme dry weather prevailing throughout the county, Trainer W. G. Douglas has found it necessary to remove his stable of trotters from the Winchester fair grounds to the Mt. Sterling course, where the track is in better condition. Mr. Douglas took with him four horses which he expects to campaign this year, and which are entered in various races at county fairs in the 2.20 and 2.40 classes.—Winchester Sun.

### Notice! Notice!

The ladies of the Baptist church will serve dinner each day of the Mt. Sterling Fair in the dining hall. Any person desiring to make a contribution will find the things needed in the list below:

Ham, chicken, mutton, beef, shoat. All kinds of vegetables. Flour, sugar, lard, meal, butter, eggs, cream, milk, oranges, lemons, coal, money.

From the number of stalls being reserved it is believed that there will be more fine stock at the Montgomery County Fair this year than has ever been on the grounds.

### STONE WINS

Jack Stone, of Louisville, was victor over Hussane Ali, the Michigan Turk, in a wrestling match at the Tabb Opera House Saturday night. Stone won in two straight falls, the first in thirty-five minutes and the second in twenty-five minutes. The men were pretty evenly matched and the affair was much enjoyed by a god sized crowd, including a number of ladies. There was a good 2 in 3 preliminary between Willoughby and Richards, two local boys. Willoughby won two straight falls after losing the first.

### GEN. YOUNG OPENS CAMPAIGN FOR SENATE

Gen. Bennett H. Young, of Louisville, made his opening speech in the interest of his candidacy for the Short Term in the U. S. Senate, at Nicholasville, Saturday.

General Young began by telling of his love for Jessamine county, where three generations of his ancestors sleep. As a son, who undertakes an achievement,

turns to his mother for encouragement, and assistance so he came first to his native county. He desired, he said, he knew not why, to represent the people for this short term. Just one hundred years ago, Jessamine was represented in the Senate by George B. Walker, and he thought it was high time Jessamine had another Senator. A large crowd greeted General Young.

#### CHEAPER FLOUR

"Some one with a talent for mathematics has figured out this years wheat crop in the United States amounts to nine bushels for every man, woman and child; that it will make 200,000,000 barrels of flour, or two barrels for everybody in the country, and that it will make sixty billion loaves of bread.

"The American wheat crop is estimated at 900,000,000 bushels, which is about half the entire world's crop of the cereal. It is a bumper production, greater by 137,000,000 bushels than was ever grown in any previous year. Nature has applied the favoring conditions which have produced a vast inland ocean of billowy grain and the country this year has seen no more inspiring sight than the waves of wheat stirred by the summer breezes and spreading over the wide stretches of territory throughout all the wheat-growing regions of the United States. Everywhere the crop has been wonderful both in quantity and quality.

"The crop here in Kentucky is no exception to the general

When Mt. Sterling Citizens Show a Way.

There can be no reason why any reader of this who suffers the tortures of an aching back, the annoyance of urinary disorders, the pains and dangers of kidney ills will fail to heed the words of a neighbor who has found relief. Read what a Mt. Sterling citizen says:

"I still think highly of Doan's Kidney Pills and gladly confirm all I said in their praise before," says Mrs. Nelson, of 43 Richmond St., Mt. Sterling. They have been of great benefit to me and if I had not used them, I would be in bad shape today. My back pained me; I felt tired and worn-out and had nervous headaches. After taking Doan's Kidney Pills, I felt like a different woman."

#### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure.

#### DEMAND FOR VEAL RAPIDLY INCREASING

"The demand for veal has increased rapidly, and not only are the surplus dairy calves slaughtered but thousands of beef calves as well until a calf will sell for from \$8 to \$12 when only two to three months old."

This quotation from Farmers' Bulletin 588 of the department means that unless the farmer has unlimited cheap feeds, it is usually more profitable to market the dairy or dual-purpose calves than to attempt to raise them, even though some of them might make good steers. While many deplore this heavy slaughter of calves, and legislation against it has been urged, the consumer's demand must be met.

While the number of cattle has decreased, the demand for meat has naturally ceased, but the packers, that they may provide cheaper meat, are now buying many cattle that were formerly fed. The farmer who formerly bought nearly finished cattle as feeders have been compelled to pay higher prices for such cattle or to take thinner animals.

The cattle-feeding business has changed greatly during recent years. Formerly steers from 4 to 6 years of age were fed in large numbers on commercial feed at yards near granaries or mills, or upon large farms where only the roughage was grown, and the cattle were kept on full feed for six months or longer. This method became too expensive, so feeding is now conducted upon farms as a means of

marketing farm products by converting them into beef, while the manure produced if utilized as a by-product for maintaining fertility.

#### LYRIC THEATER AT WINCHESTER SOLD

The equipment and good will of the Lyric Theater, in Winchester, was sold last week to Messrs. Bloomfield, proprietors of the Pastime and Mr. Sphar, of the Colonial Theater. #### SOME FARMERS GET NO WAGE

With Many the Income is Said to Be All From Investment, None From Labor.

One measure of a farmer's success is the amount of money which he has left to pay him for his own labor after he has met all other expenses of running his farm, writes D. W. Frear in the Breeder's Gazette. The legitimate running expenses of the farm do not include personal, living or household expenses. This sum received by the farmer for his own labor for the year is his labor income.

Some farmers are making labor incomes about as large as their hired men and some are making good yearly salaries. Others are receiving little or nothing for their labor. Their farm income is largely or entirely from the interest on their investment. Farmers who are not making labor incomes equal to the wages of a good hired man would be better off financially if they would sell their farms, put their money out at interest and work for wages.

An example will make this plain. Assume that a farmer has a farm income of \$1,500, and that his farm investment is \$20,000. Interest on this at six per cent. is \$1,200. The difference between this amount and \$1,500, or \$300, represents his labor income. If his net income is only \$1,200, then he has no labor income and is working for nothing.

Farmers should keep sufficient records of their business to enable them to determine their labor income. This means taking an inventory at the opening and closing of the year and keeping a record of the expenses and receipts.

If a farmer is not making ordinary wages in addition to a fair rate of interest on his investment, he ought to know it, and then take steps to learn why and to correct the trouble. On the other hand, some farmers are making more than good interest on their investment and wages for the time which they put in. If they are not making as much money as they would like it may be because their investment is too small and the time they actually work too limited.

#### HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

# DAIRY FACTS

## DEVELOPING THE DAIRY CALF

Keep the Heifer Growing. Feed Her Liberally, But Do Not Fatten Her —What Feed to Give.

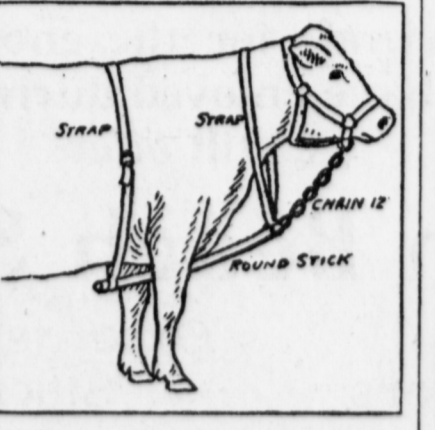

(By E. K. PARKINSON, Copyright, 1914.)  
The development of a dairy calf should begin in the sire and dam back several generations. To illustrate, if there is land enough to keep a cow and money being distinctly an object it is decided to buy a heifer calf and raise it. With this end in view the milkman or butcher is interviewed, and, being an obliging chap, he finds a pretty little bossy, drops \$10 into his pocket and the prospective milkster is installed. For two years the beast is fed, petted and watched over, and at last the eventful day arrives when, with new milk pail in hand, the family gather in the barn to watch the milking—the result, about eight quarts daily. At first that sounds very well, but wait a moment. The Massachusetts Agricultural college has found the keep of a cow (feed, insurance, taxes, depreciation, etc.) costs \$146.04 per year, so let us do some figuring: Eight quarts for 300 days (the cow being dry two months yearly) gives 2,400 quarts, which if sold at six cents per quart would return \$144, a loss of \$2.04—not quite what we had reckoned on, is it?

Therefore a future dairy cow should come from a line of good milkers—at least, on the sire's side—and will cost as a calf about \$25, but the money is well expended, and, the calf once purchased, the importance of spending thought as well as feed in its development should not be forgotten, especially during the first six months. Feed new milk the first two or three weeks, four to six quarts daily divided into three feeds, then gradually substitute skim milk and continue so to feed until six months old. Skim milk and well cured hay, alfalfa or clover, fed three times daily, should make the bulky part of the ration. Silage may take the place of one feed of hay when three months old, and may be fed twice daily after six months. In addition to bulky feed, the calf requires grain to furnish nutriment and stimulate growth. Feed little at first, about a half a pound a day in a clean wooden box, and gradually increase until two pounds are given. A good mixture consists of cornmeal, ground oats and wheat bran in equal parts and a half part of linseed meal. Feed the spring calf in the barn the first summer, and when a year old turn her into a good pasture, when no other food will be required. Fall calves should not be obliged to depend entirely on pasture until eighteen months old. Keep the heifer growing, feed her well, but do not fatten her.

## TO PREVENT EVIL PRACTISE

Device Arranged to Effectually Stop Cows From Milking Themselves—Improvement Suggested.

F. W. Feldman, in the Nebraska Farmer, suggests the following device to keep cows from sucking themselves:  
Mr. Feldman says he has used this method on a cow, and it always has given satisfaction. The reason he puts the chain at the end of the wood pole is to give the cow a better chance to eat. The length of the pole and chain must be made to suit the size of the cow.  
It is suggested that a strap along

Device for Self-Sucking Cow.

the spine connecting the strap over the neck with the one over the back might improve the device.

**Temperature for Churning.**  
Cream should be churned at as low a temperature as possible, as the colder the cream when churned the more exhaustive churning attained and the better the grain and flavor of the butter. Other conditions being favorable, from 58 to 60 degrees will usually be sufficiently low.

**Churn is Final Decision.**  
The solids in milk gauge its produce—not its bulk—for it is the same as with cream. Equal measurements produce different results as milk is, in one sense, cream diluted, and the churn must be the final decision in the matter.

## Commissioner's Sale.

MONTGOMERY CIRCUIT COURT

J. L. Watson, Plaintiff  
vs.  
H. B. and Bessie Kinsolving, &c. - Defs

NOTICE OF SALE IN EQUITY.

By virtue of a Judgment and Order of Sale of the Montgomery Circuit Court, rendered at the April Term, 1914, thereof, in the above styled cause, the undersigned will, on the

**20th Day of July, 1914**

at 1 o'clock, p. m., or thereabout, (being Court-day), proceed to offer for sale at Public Auction, to the highest bidder or bidders, on a credit of 6 and 12 months, at the Court House door, in the city of Mt. Sterling, Ky., the following described property, mentioned in the judgment, or enough thereof to produce the sum of \$6,756.85, so ordered to be made:

A certain lot of land, with brick residence thereon, located on the west side of Maysville street, in Mt. Sterling, Montgomery county, Ky., and bounded on the south by the properties of C. K. Oldham and John G. Winn; on the west by the property of O. S. Bigstaff; on the north by the properties of W. B. White and Roger D. Barnes, and on the east by said Maysville street, and being the same property conveyed to Bessie B. Kinsolving by Mrs. Willie Benton, by deed dated February 14th, 1901, and recorded in Deed Book 56, at page 518, in the Montgomery County Court Clerk's office.

For the purposes of said sale said property has been divided and sub-divided as follows, to-wit:

Lot No. 1, or residence lot—Beginning at the Southeast corner of the property of Roger Barnes, on Maysville Street; thence S. 15° W. 94½ ft., along the margin of Maysville Street to the Northeast corner of the property of C. K. Oldham; thence leaving the street with Oldham's line S. 74° W. 502 ft. to the corner of the lot No. 2; thence N. 12° W. 85 ft. to the Southwest corner of the Roger Barnes property; thence with the South line of Roger Barnes' property N. 73° E. 496 ft. 2 ins. to the point of beginning, reserving, however, a fifteen foot alley way, extending from Maysville Street along the line of the Roger Barnes' property to Lot No. 2, the said alley-way to be and remain free and open to the purchaser or purchasers of Lot No. 2 or any sub-division thereof.

Lot No. 2, or vacant lot—Beginning at the Southwest corner of the property of Roger Barnes, at the end of the fifteen foot alley, thence along the west line of the Roger Barnes property N. 12° W. 161½ ft. to a corner with W. B. White, thence with W. B. White's line S. 73° W. 235½ ft. to a corner with O. S. Bigstaff thence with Bigstaff's line S. ½ W. 153½ ft. to a corner with John G. Winn; thence with Winn's line S. 88 E. 239 ft. 4 ins. to a stake in Winn's line; thence S. 13° E. 26½ ft. to a corner with Winn; thence N. 70½ E. 44½ ft. to the Southwest corner of lot No. 1; thence with the back line of lot No. 1 N. 12° W. 85 ft. to the beginning, together with a right of pass-way over the 15 foot alley-way reserved along the line of the property of Roger Barnes, over lot No. 1, and extending from lot No. 2 to Maysville Street.

Lot No. 2 has been subdivided into the following subdivisions:

Sub-division A—Beginning at (1) on map, corner to C. K. Oldham, thence N. 12° W. 72½ ft. to (2); thence along the street S. 83° W. 261 ft. to (3) in O. S. Bigstaff's line; thence S. ½ W. 32½ ft. to (4), corner to J. G. Winn; thence S. 88 E. 239½ ft. to (5), corner to same; thence S. 13° E. 26½ ft. to (6), corner to C. K. Oldham; thence N. 70½ E. 44½ ft. to the beginning.

Sub-division B—Beginning at (7) on map, corner to Roger Barnes; thence N. 12° W. 148½ ft. to (8) in W. B. White's line; thence S. 73° W. 50 ft. to (9) in White's line; thence S. 13° E. 136 ft. to (10); thence along the line of 25 foot street N. 83° E. 50 ft. to the beginning.

Sub-division C—Beginning at (10) on the map, thence N. 12° W. 136 ft. to (9); thence S. 73° W. along the line of W. B. White, 50 ft. to (11); thence S. 12° E.

## FRIENDS THAT LOVE ALWAYS

The friends that love us always,  
In the good times and the bad;  
The friends that love us always  
Are the friends that keep us glad.  
The friends that cling in tempest  
As they do in calms are those  
That have made the paths of hardship  
Seem the paths of song and rose.

The friends that love us always  
When we go their way or not,  
Are the friends that hearts remember  
When the others are forgot.  
The friends that stick the closest  
When the trouble grows the worst;  
The friends that love us always  
Just the way they did at first.

They are the crowning jewels  
Of the coronets we weave  
In the dreams of tender moments  
When the troubles start to leave;  
And we hush their names forever;  
And we see their faces clear;  
The friends that love us always,  
In the sun or shadows, dear.

## A GOOD SUGGESTION

"They banish our anger forever when they laurel the graves of our dead," wrote the author of "The Blue and the Gray," and, with this sentiment uppermost in his heart, President Wilson has expressed the wish that the Mason and Dixon line be forever forgotten. As a means to an end, he suggests to the Lincoln Highway Association that the road run from Philadelphia to Gettysburg through Washington, thus linking, not only in a sentimental but a practical way, the North and the South.

"I am sure the entire country is interested to see to it that there should no longer exist a North or a South in this absolutely united country," said the President in a communication to the head of the Lincoln Highway Association, adding: "The imaginary Mason and Dixon line should be made once and for all a thing of the past."

It is time that this sentiment found an echo in the heart of every citizen of the Republic. The flag that once floated over Gettysburg, Antietam, Bull Run and other fields of strife have long been furled. Time has effaced the stains of battle. The combatants, though still bearing the scars of civil conflict, are brothers of the commonwealth and one in the greater battle for a greater nation."

If there were no bad listeners there would be no bad talkers but an evil ear invites the slanderous tale.

## PUT PREMIUM ON MATRIMONY

Many Homely Women With Fortunes Wish to Wed, Declares This New Yorker.

There are plenty of homely women with fortunes who wish to get married. This is declared by Ralph Herman, thirty years old of 34 Riverdale avenue, Yonkers, N. Y., who is trying to select the right one to marry. He advertised in a Yonkers newspaper for a woman to become his wife, and in his specifications for a helpmeet stated that he would prefer a homely one with a lot of money. Extra postmen had to be sent to deliver the mail received for the advertiser.

Mr. Herman, who is connected with the Medical Hebrew, a weekly paper published in New York, declared he wanted a wife with enough money to set him up in the printing business.

"Two or three that answered my 'ads' have money and are anxious to marry me," he said. "I want a homely wife who will be practical and stay at home and not think about society."

One of the replies Herman received from a Yonkers woman reads: "I have been looking, as I thought, in vain for a man who would appreciate my wealth and forget my homeliness, and in you I think I may find the real partner. You may hold the pocketbook if I may hold your heart. You will never meet another whose homeliness compares with mine. No man has ever held my hand because he did not know the value of it. I am impatiently awaiting an answer from my heart's desire."—New York Telegram.

## TIPPING OFF THE AUDIENCE

After That, No One Could Say He Didn't Know What He Had to Expect.

When Representative James B. Aswell of Natchitoches, La., was superintendent of schools for his state he made a tour of Arkansas for the purpose of persuading the Arkansians to submit to heavier local taxation for the benefit of the public schools. Mr. Aswell has never been a dub in the art of speaking, and on this trip he fairly burned up the countryside with his eloquence, inducing the rural populace to part with real money.

One night he was to face an audience far back in the country, in a neighborhood that had never been profaned by the screech of a locomotive or the soft rumbling of a spring wagon. At the appointed hour the farmer who was to introduce him stepped to the front of the platform, mopping his brow with a bandanna and gasping for breath. He then spoke as follows, with all the labor necessary to overturn a house or uproot an oak:

"Ladies and gentlemen, you know I ain't used to makin' no speeches. I ain't never pertended to be no orator. Besides, it's a hot night, a powerful hot night, an' you wouldn't expect me nohow to wear you out with a long speech. But I'll now introduce a man who will."—Popular Magazine.

## EXPLODING MINES BY LIQUID AIR.

Experiments are being conducted in Germany to discover the usability of liquid air and liquid oxygen as explosives for mines. The liquid oxygen is mixed with aluminum powder and detonated, producing a force two and a half times that produced by black powder. One advantage that it possesses is that no bad fumes are produced.—Coal Age.

## MIGHT BE A LONG WAIT.

Fisherman—If you'll take a picture of me catching fish I'll buy it of you.

Photographer—Very good. But I warn you that I have to join my regiment in six months.—Pele Mele.

## NOT A TANGOIST.

Miss Sally—Do you like codfish balls, Mr. Cornsilk?

Mr. Cornsilk—Really, Miss Sally, I don't believe I ever attended one.

## OTHERWISE ENGAGED.

Ella—Did the bride smile as she walked down the aisle?

Mai—I don't know; I was watching her hat.

## DID HIS PART.

"But if your mother does odd jobs to support the family, what does your father do?"

"Oh, he gets the jobs for me!"

## GOT THE CAPTAIN'S "GOAT"

Obstinate Occupant of Motor Boat Caused Him to Lose Two Very Precious Minutes.

"The small vest-pocket editions of motorboats cause us fellows more trouble than a battleship," said the captain of a North river ferryboat, pointing out of his pilot house window to a little motor boat creeping along close to the Jersey shore.

"See that boat? It's hardly larger than a Jersey mosquito, and yet I'll bet a dollar that boat makes me lose a couple of minutes."

The captain swung the wheel over and blew a deep, long blast from the whistle in an effort to scare the operator of the motor boat and cause him to change his course and pass to the stern of the ferryboat. The man in the motorboat paid no attention and went chug-chugging on his way.

"Just what I said," cried the captain, decorating his language freely. "I have to make connections with an outgoing train, and if I'm a minute late I have to explain why. If I keep on I'll run down that motorboat."

"In the position we lie now I have the right of way, and according to government rules and regulations I should keep on my course and let that fellow go astern of me. I have blown him a whistle, but you see he pays no attention because he doesn't know what the 'rules of the road' are. I suppose he thinks I'm whistling for fun. If I keep on I'll run down that motorboat, and I'm sure to lose my job; if I stop till that dinky thing is out of the way I'll lose a couple of minutes."

The captain stopped his boat and swore and the motorboat kept on.

"My conception of hell," said the captain, "is a crowded river like this with a lot of fool motorboats puffing around."

## BELONG TO SUICIDE CLUBS

Refugees in Germany Who Pledge Themselves to Self-Destruction Within Short Time.

The Berlin police are busy tracing the founders of suicide club associations, which are a novelty for Germany, although they have existed for many years in Russia, despite police efforts to check their growth and expansion.

A surprisingly large number of these clubs have sprung up in Germany, and are now banded into associations similar to the Russian organizations. Members are recruited principally from Russian students and political refugees.

Weekly meetings are held, each time at different places, in order to avoid police interference. At each meeting some members volunteer to commit suicide. Lots are drawn and the victim designated. He has to kill himself within the next 24 hours.

In order to put him in as cheerful a mood as possible opium or some other drug is served, with wines, speeches are delivered on the uselessness of life and the delightfully hopeful existence of after death.

Naturally, these weird associations have aroused the suspicions of the German authorities, and every night police raid dens where the prospective suicides are likely to be.

What put the police on the track was the fact that in Berlin some women accepted as members backed out when the time came for them to kill themselves, and after their expulsion took revenge by reporting to the police.

## CAUSE OF A GROUCH.

First Lodge Member—I don't know what I did to offend our new grand high mucky-muck, but he hasn't spoken to me since I recovered from my illness.

Second Lodge Member—That's the trouble. You see, he spent a good many hours learning the funeral ritual while you were sick.—Puck.

## MAKING MEASLES PAY.

Parent—Now, what are you going to charge me to cure this boy of the measles?

Physician—Nothing at all, my dear sir, as it is an original case, and you get your ten per cent. commission for every child that catches them from him.—Puck.

## EXTRAVAGANCE.

Hicks—Is it true, then, that you're living beyond your station?

Wicks—Yes—two miles.—Pearson's Weekly.

## Valuable City Property

AT PUBLIC AUCTION

Unless sold privately before, I will, as agent for Leslie C. McCormick, sell to the highest and best bidder at public outcry on the premises, on

Thursday, July 16th, 1914

at 2 o'clock, p. m., the following property:

No. 1.—Handsome building lot on West High street, with frontage of about 90 feet, and adjoining the property of Miss Louise Morris. This is one of the most desirable lots in the city and has a good depth to it of about 170 feet. It is located high and dry, and no prettier building site is in the city.

No. 2.—Seven room frame two-story residence, with lot 50 foot front on Samuels avenue, and running about 160 feet deep. The residence is in good condition, has gas and water with nice bath room and will make a nice home. It is now occupied by Mr. Gemmill Senff and possession can be had in 30 days. Pavements already laid.

No. 3.—Excellent building lot 50 feet by 160 feet adjoining Oliver Howell. Has on it a nice stable and is one of the most desirable in the city. Pavement in front and on water line and sewer system. Ideal location for nice home.

No. 4.—Eight room frame two story dwelling, corner Samuels avenue and Main street, now occupied by J. Davis Sewell. This home is one of the most modern in the city, new and is finished throughout in the best possible manner, with gas and water and cannot be improved upon for a nice cozy place to live. The dimensions of this lot will be furnished on day of sale.

No. 5.—Lot corner Samuels avenue and High street, 58x200 feet. Adjoins Baptist parsonage and is an ideal and well located building site for a home.

All of this property is located right in the very best part of the city, where property is advancing in value and where increases rapidly come without any boom. This is a rare opportunity to buy some very desirable property at your own price as Mr. McCormick has moved to Lexington and is going to sell all his property holdings in this city.

Come to the sale and buy you a good home or a nice lot and build you a home.

Terms will be announced on day of sale.

## PARIS AND IRONTON WITHDRAW

Iron-ton and Paris clubs of the Ohio State League withdrew from the circuit at a meeting of the league directors Sunday. For sometime the Paris club has been carried by the league. When it became known that the Iron-ton club wished to withdraw it was decided to drop both of them.

A majority of the players of the two clubs have signed with other teams in the league.

## TODAY

Why fear tomorrow, timid heart?

Why thread the future's way?

We only need to do our part,

Today, dear child, today.

The past is written! Close the book.

On pages sad and gay;

Within the future do not look,

But live today, today.

'Tis this one hour that God has given.

Him now must we obey;

And it will make our earth His heaven

But live today, today.
